-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Priority

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Drawings

2. The drawings are objected to because drawings were not submitted for the current application. The examiner has examined the application based upon the drawings which appeared in the PCT application, but it is requested that applicant submit the drawings separately with a response to this Office Action. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1, 2, 5, and 9 are rejected under 35 U.S.C. 102(b) as being anticipated by Heuliez (German Publication 2853621).

Re claim 1, Heuliez discloses a driver's cab supporting structure for a commercial vehicle, said structure comprising a stiff safety cell (4) arranged in a driver's cab area, with a front region and a rear side facing a loading region a seating region surrounded by the stiff safety cell to which a deformation region (8) for absorbing deformation energy is connected between seating region and loading region, wherein, the safety cell has a cage design and a part of a longitudinal member (8) which is behind the seating region is designed as a deformation region.

Re claim 2, the safety cell is displaceable relative to a vehicle frame (as seen in figure 7).

Re claim 5, the deformation region is arranged between the seating region and a support (3) against a vehicle frame.

Re claim 9, the safety cell comprises separate driver's and passenger's cells (see figure2).

Allowable Subject Matter

5. Claims 3, 4, 6-8, and 10 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Ellenrieder et al., Corcoran et al., Tiziano, Mori et al., Ljungquist et al. Carcioffi, Murakami, and Frederick et al. all disclose vehicle cab structures.
